

COLORECTAL DAY

LET´S RETHINK COLORECTAL SURGERY

16th Colorectal Day

28 April 2017

CENTRALVÆRKSTEDET
VÆRKMESTERGADE 7-9
DK-8000 AARHUS C

**AARHUS
UNIVERSITY**

Dear friends and colleagues

It is our pleasure to invite you to join the 16th Colorectal Day. The meeting will be held at Centralværkstedet in Aarhus on the 28 April 2017.

A long list of international experts within the field of colorectal surgery has been invited to describe the enormous development of the field of colorectal surgery in the past decades. They have been asked to give a perspective for the future.

This Colorectal Day will be special as it is 40 years since Søren Laurberg graduated from medical school and moreover, he has now stepped down as Vice chairman of Department of Clinical Medicine and Centre Chair at Aarhus University Hospital.

Five themes have been selected with focus on what has happened within the field during the last 40 years, current important scientific challenges as well as developments within the next decade. The five themes for Colorectal Day 2017 are: Surgery in patients with Ulcerative Colitis, Rectal cancer surgery, Treatment of functional disturbances, Pathology and diagnostic imaging in colorectal cancer, Development/research.

We are looking forward to see you in Aarhus.

Please remain updated and register for the course at www.crd.auh.dk

On behalf of The Colorectal Unit Aarhus – Randers

Peter Christensen
Professor, DMSc

Lene. H. Iversen
Professor, DMSc

Søren Laurberg
Professor, DMSc

Knud Thygesen
Head of Department of Surgery, Aarhus

Peter Nerstrøm
Acting Head of Department of Surgery, Randers
